

Current CDM Situation and Perspectives for the Second Commitment Period of the Kyoto Protocol

Third National Workshop for CDM Capacity Building Programme in Belize

*UNEP RISOE Centre (URC)
25 June 2012*

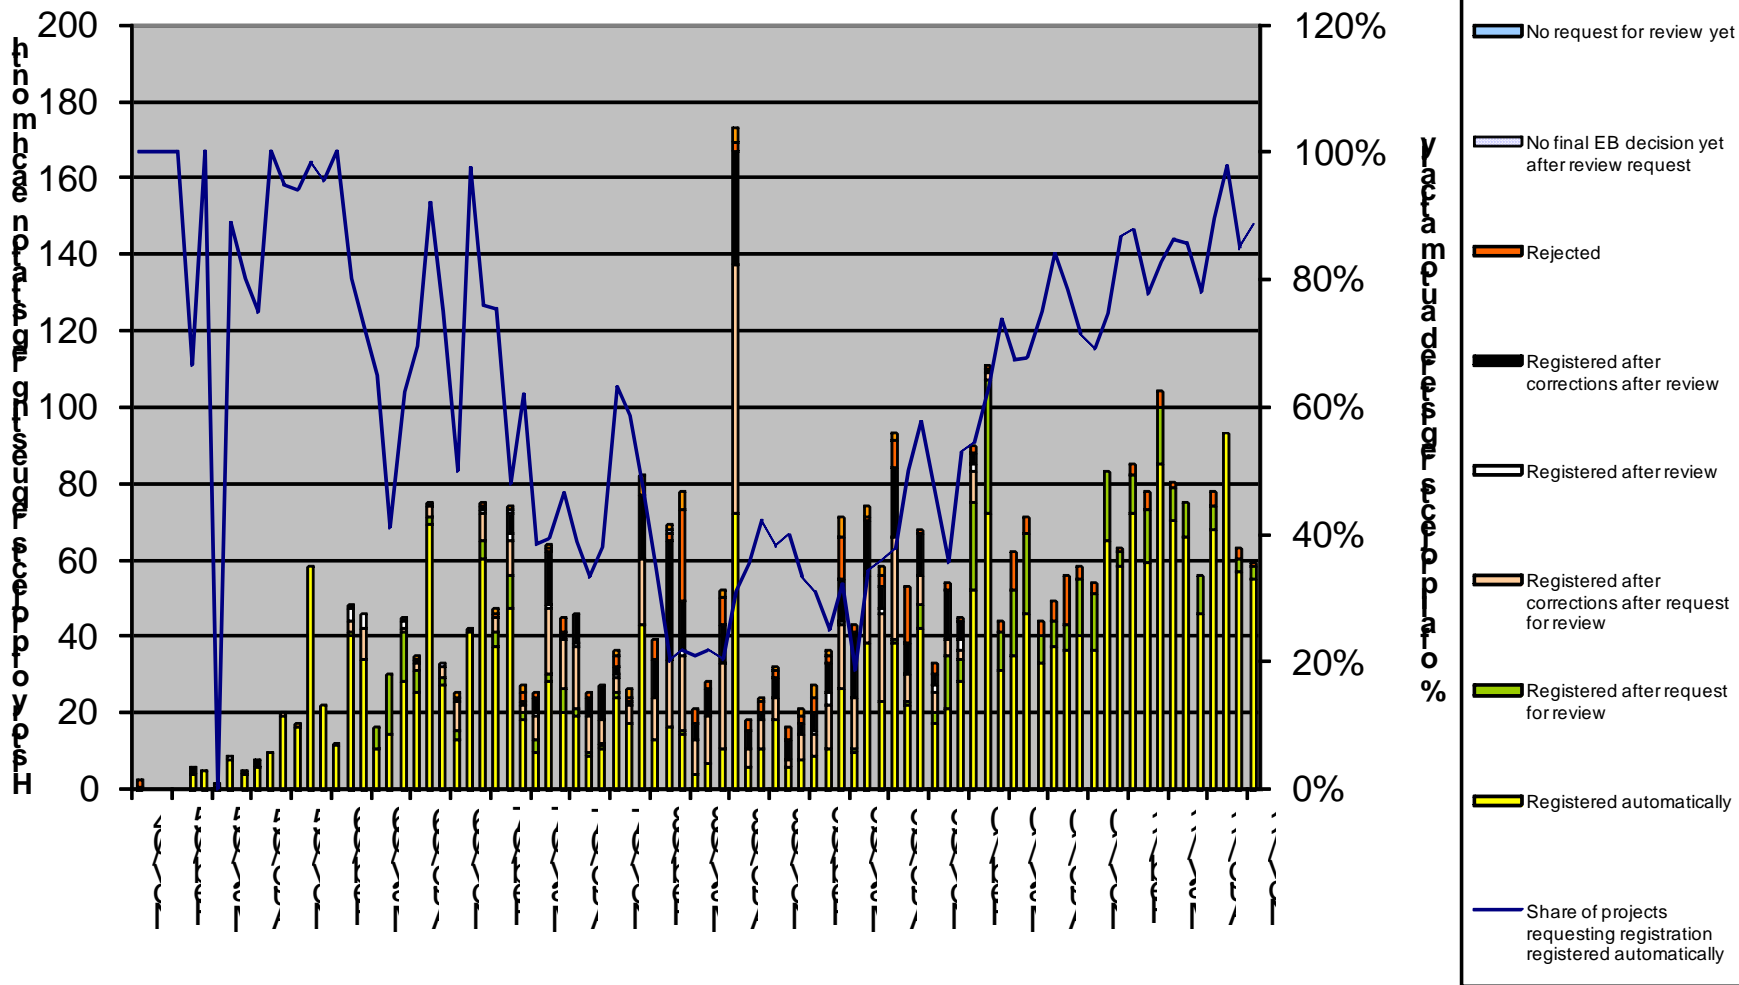

1) Current Status of the CDM projects

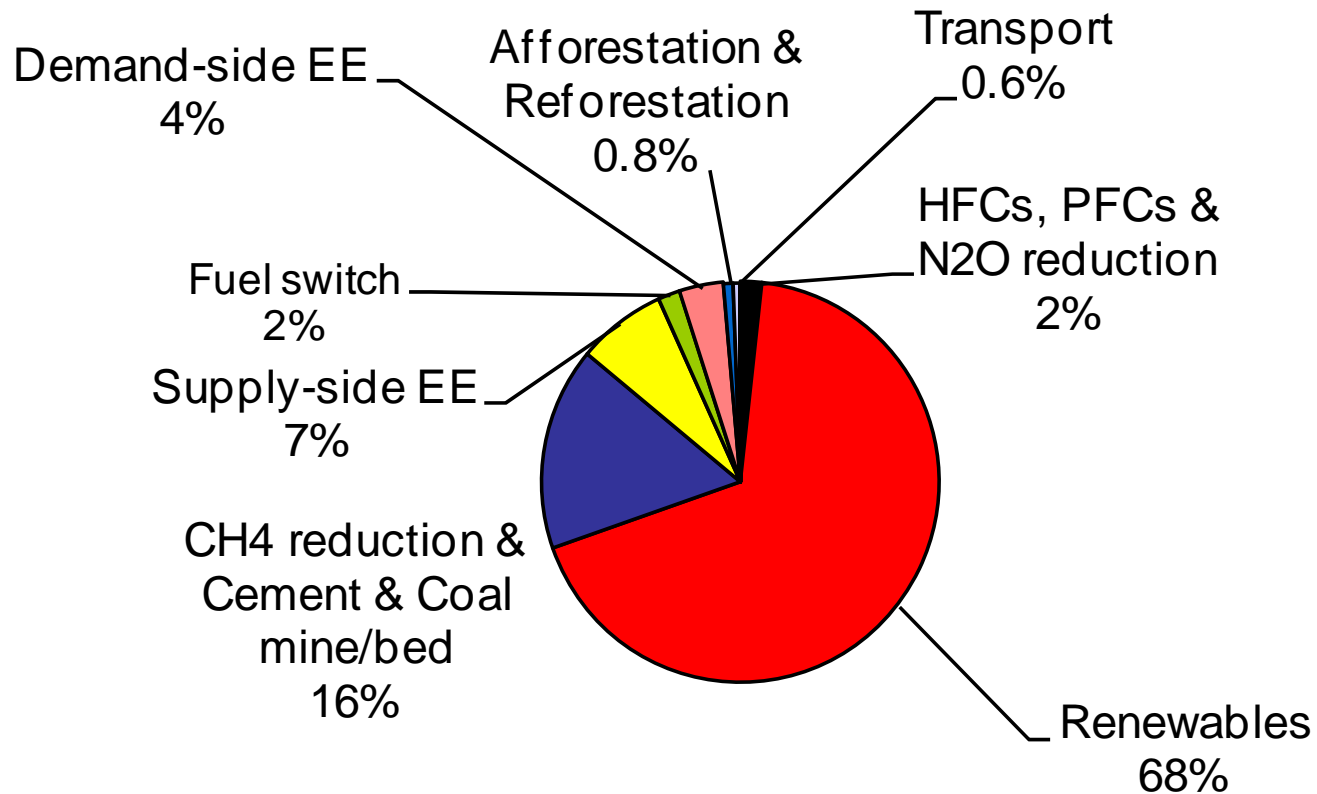

- a) Development of registered CDM projects
- b) Characterization of the CDM projects
- c) Expected issuance of CERs until 2012

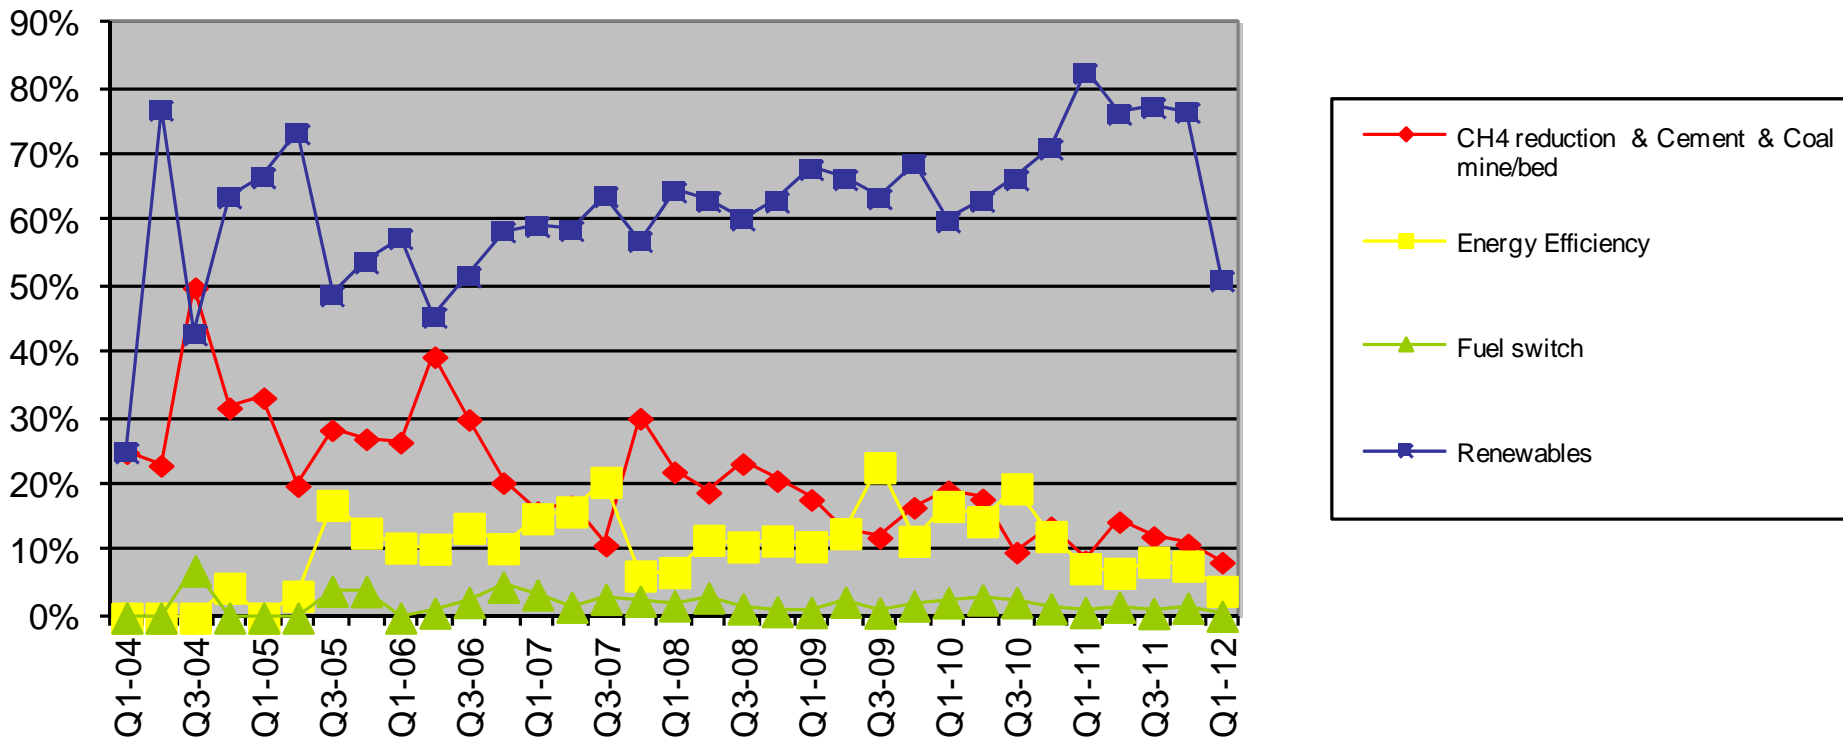

Review history

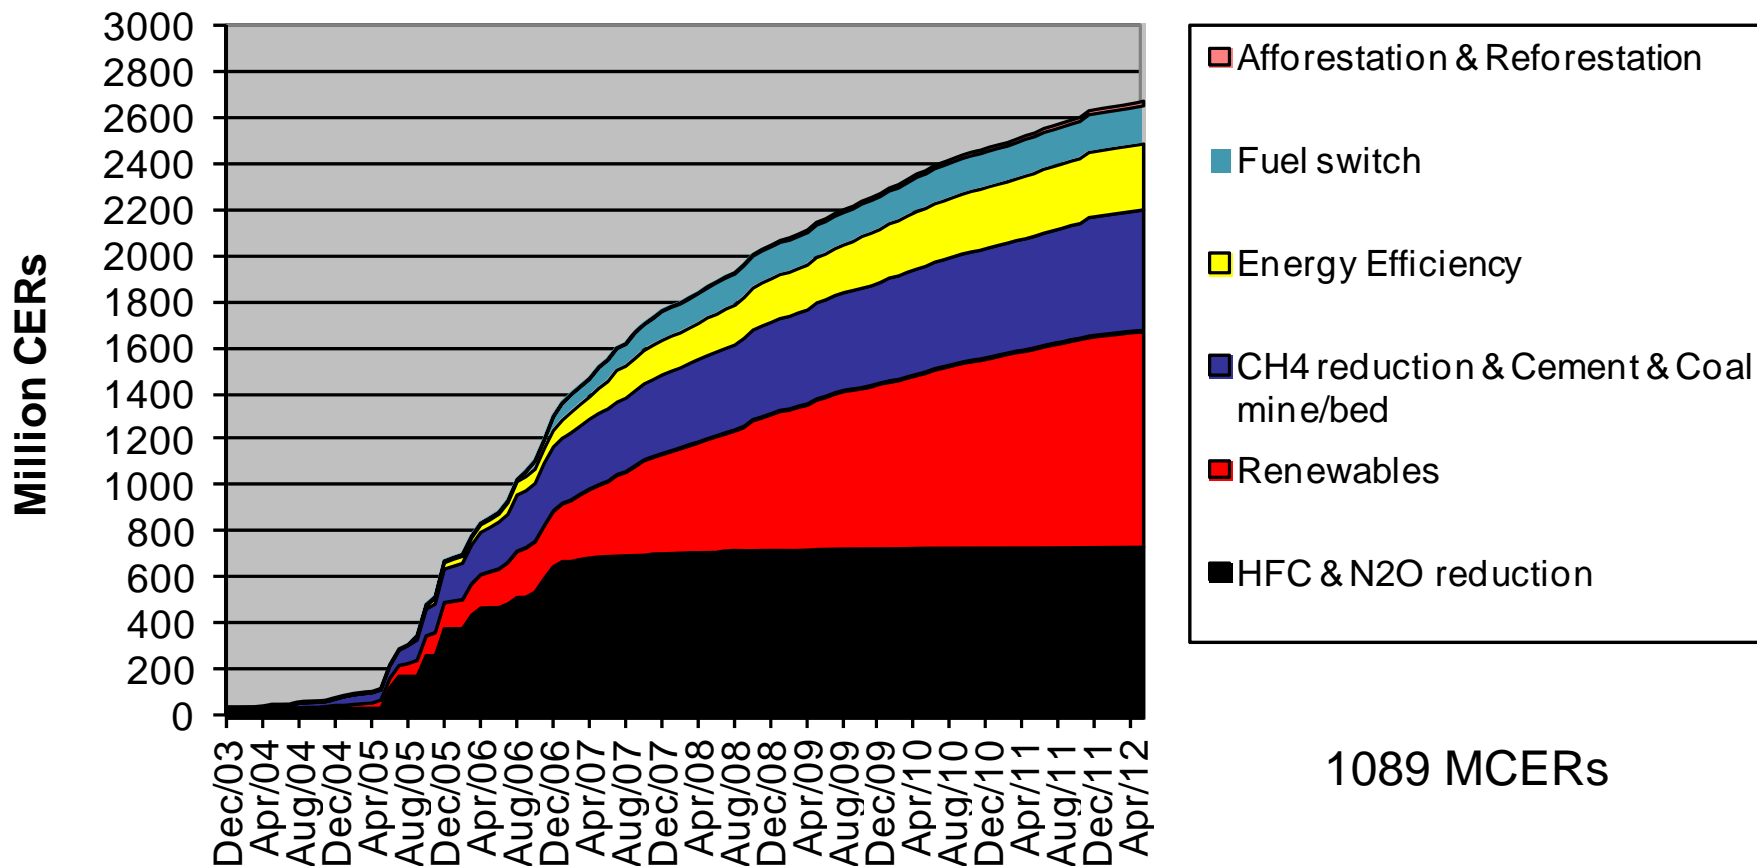

Number (%) of CDM projects in each category

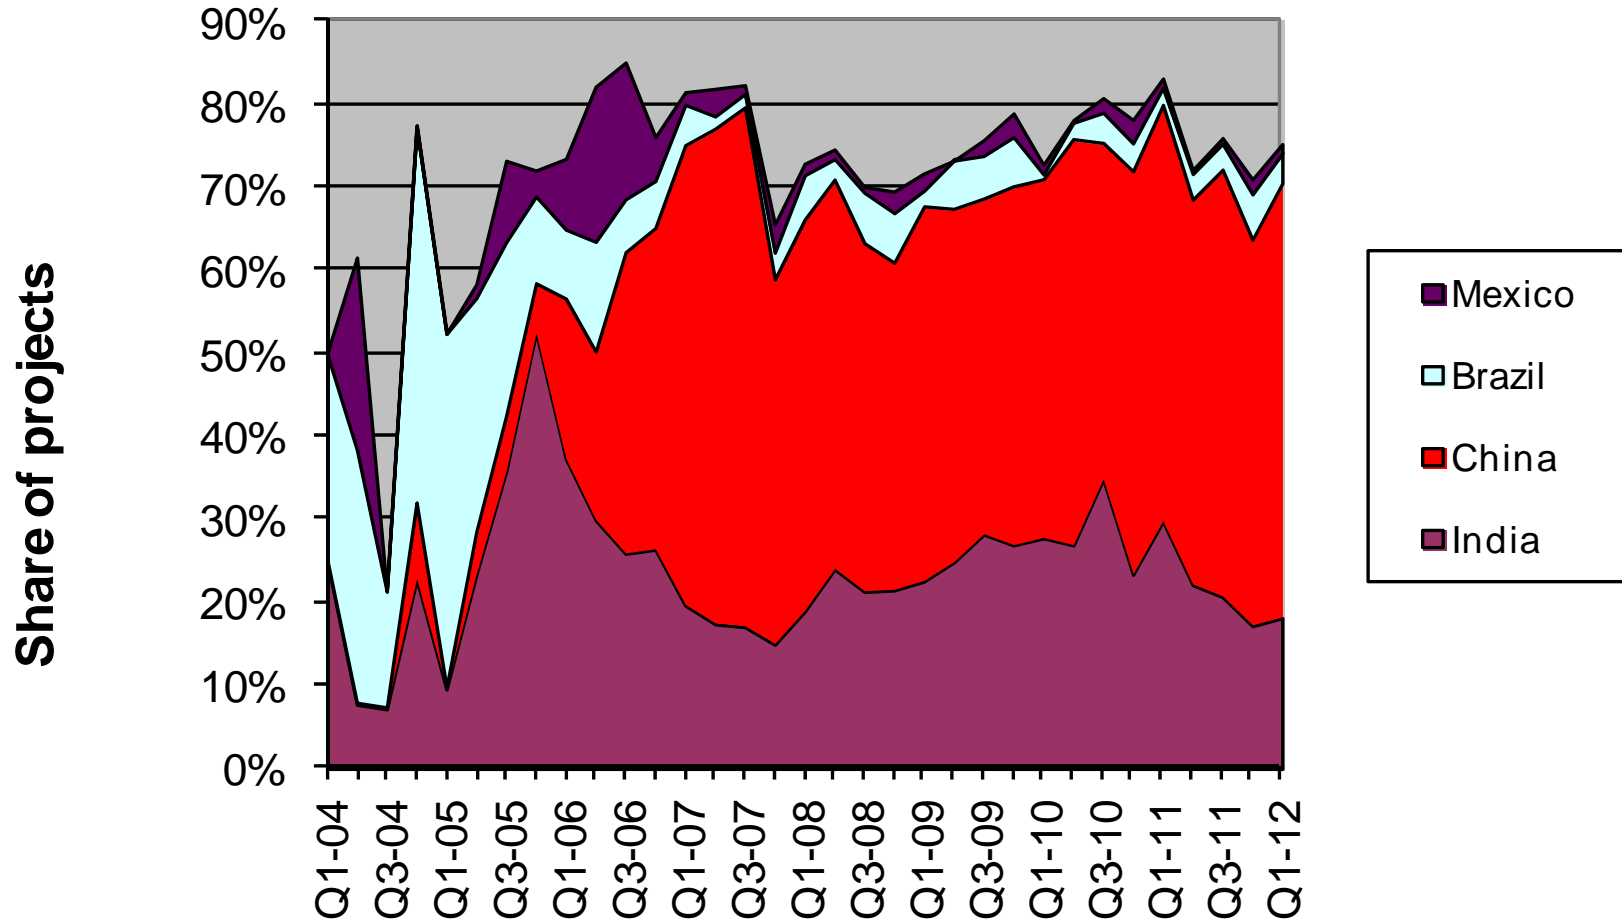

Percentage share of the total number of projects of 4 largest CDM categories in numbers

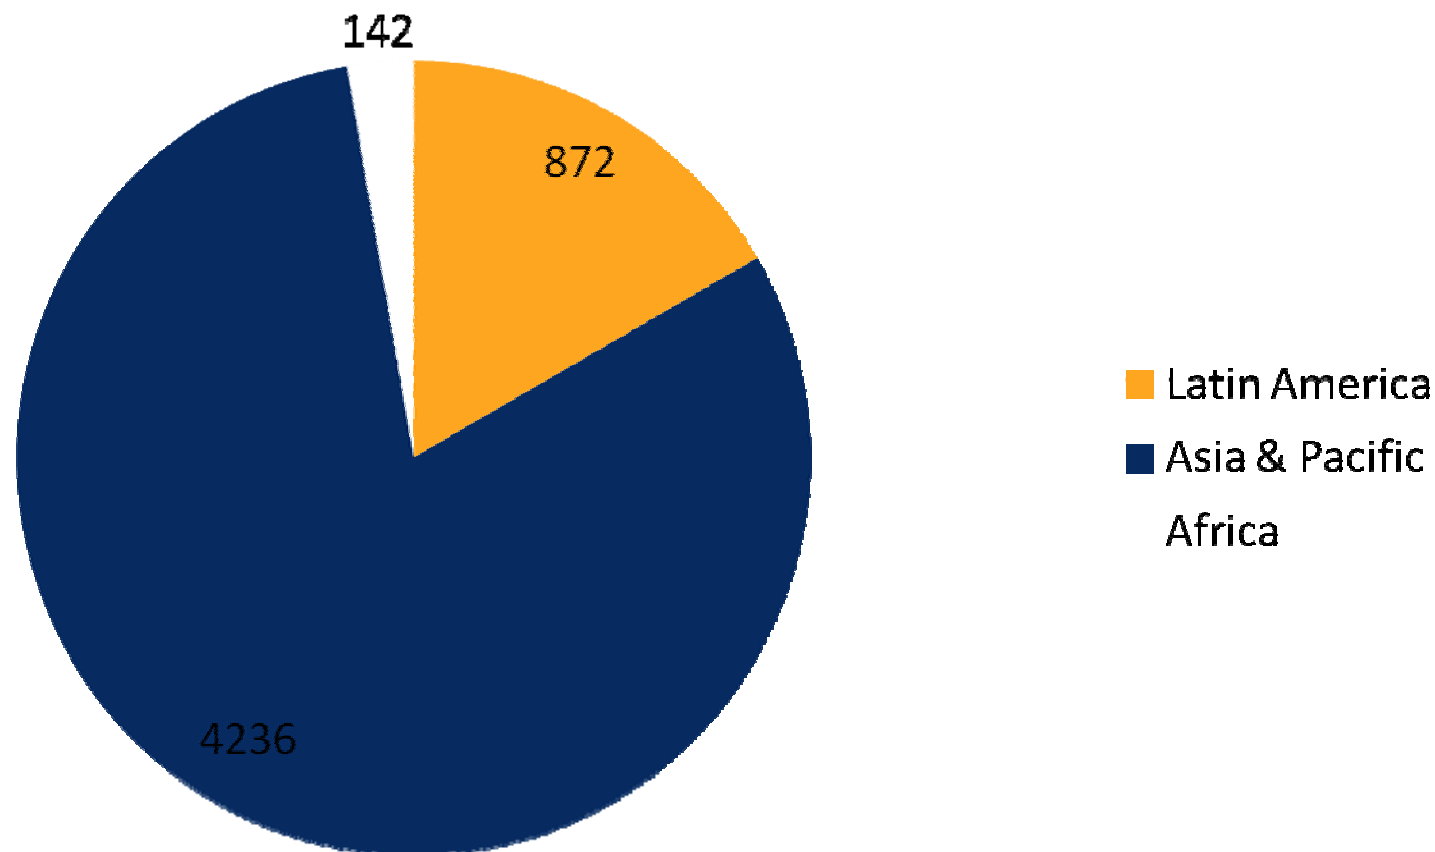

Growth of total expected accumulated 2012 CERs

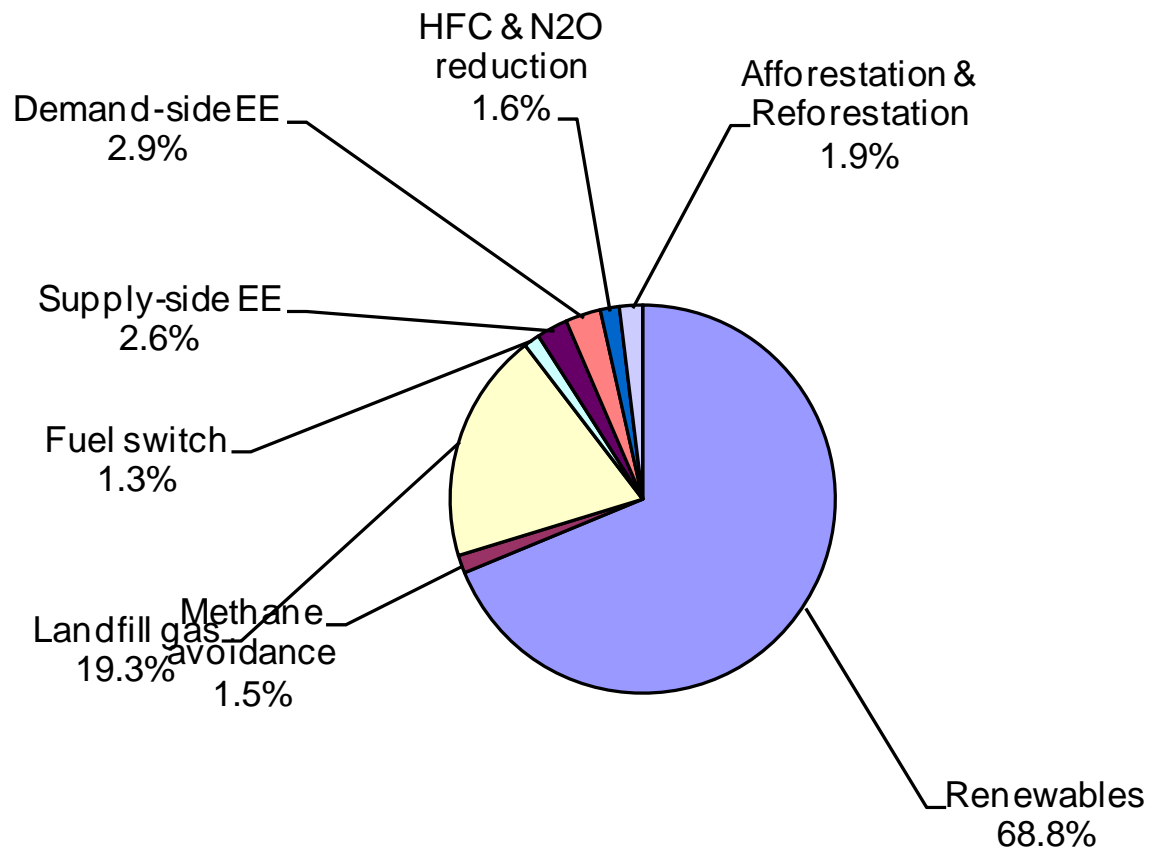

All CDM Projects in the Pipeline in Brazil + Mexico + India + China as a fraction of all projects

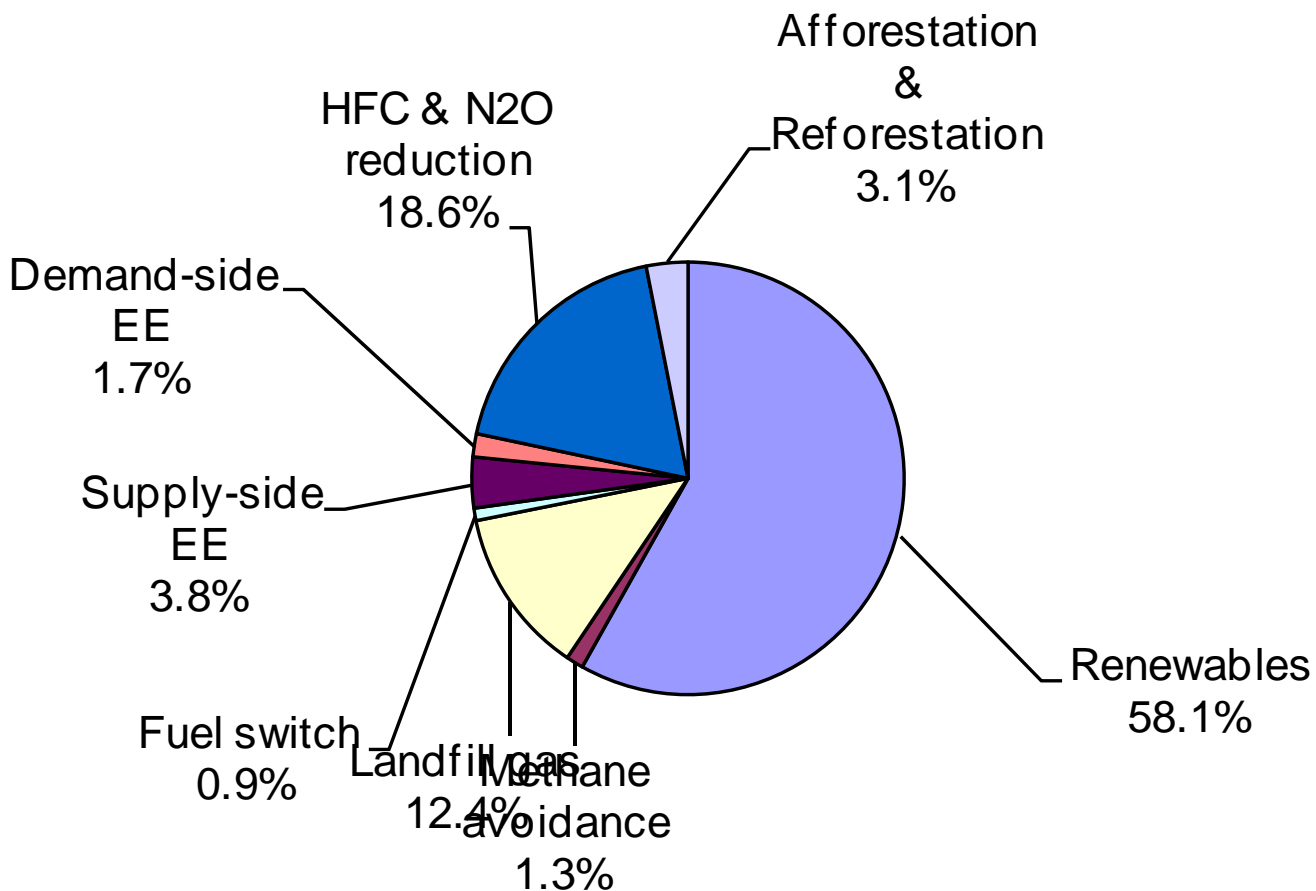

Regional distribution of CDM projects

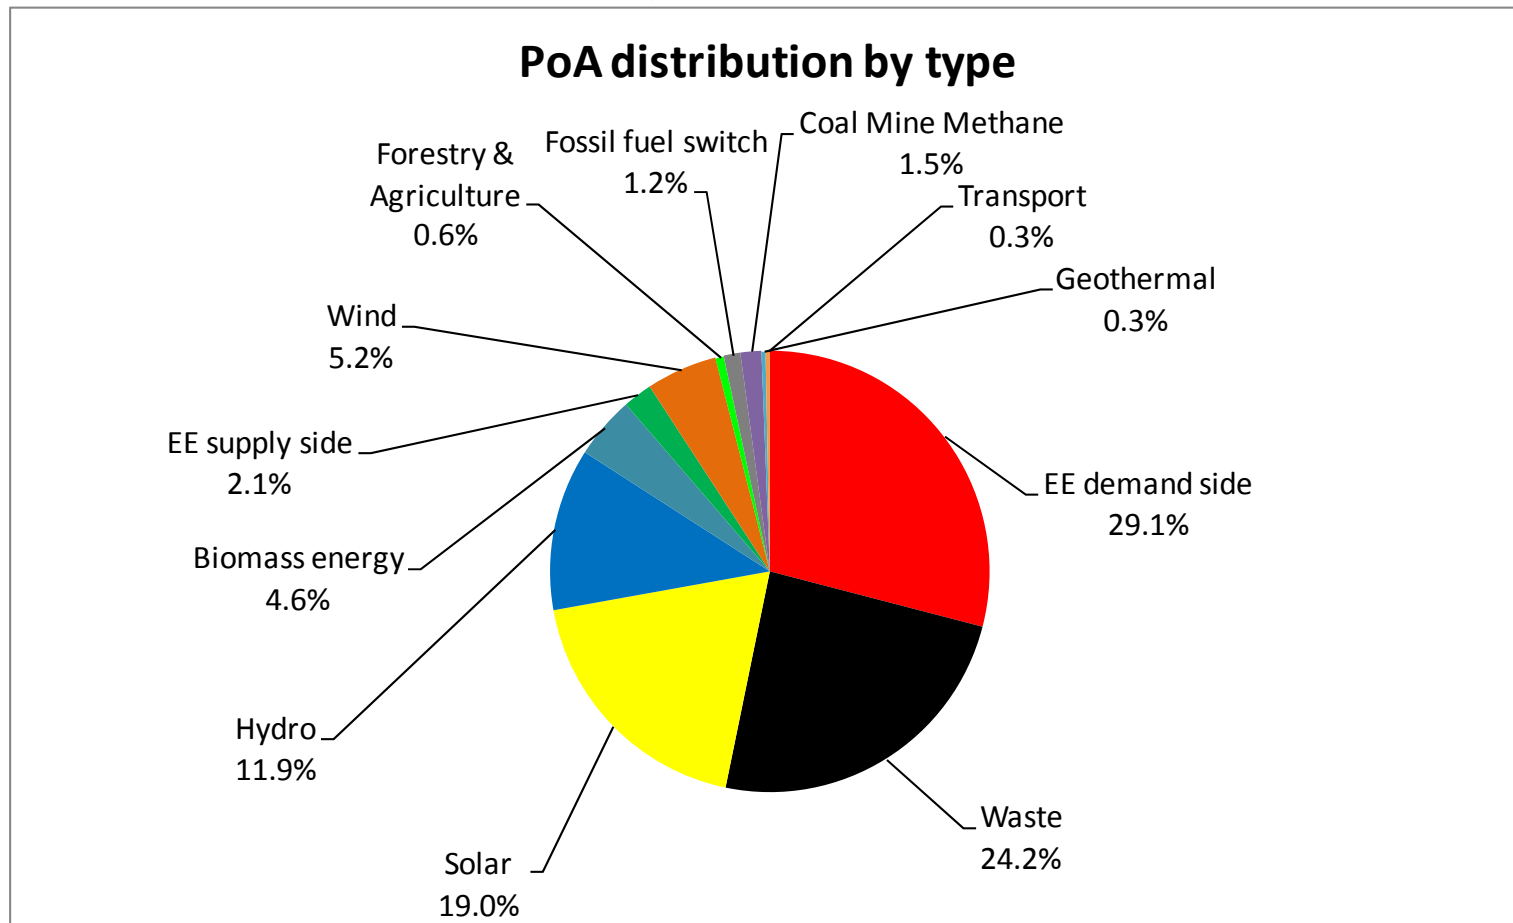

Number of projects in Latin America by type

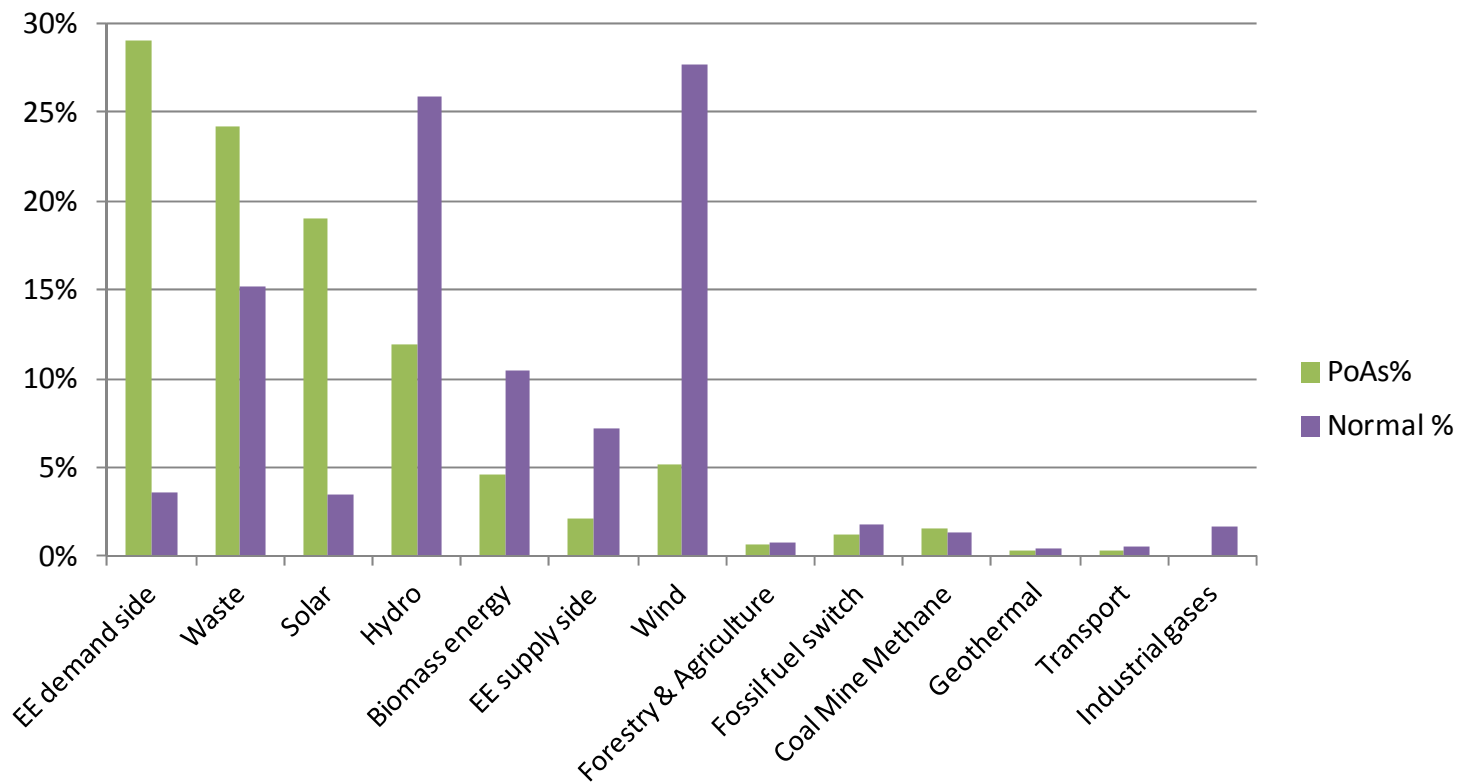

Volume of CERs until 2012 in Latin America by type

How is the situation for the regions since we have the Programmatic CDM?

Number of PoAs compared to normal CDM

Thanks for your attention
